November 19, 1996

Mr. Vernon Borgen  
1033 N 5th Street  
Fargo, ND 58102

Dear Vern:

Your friends were mistaken! I did read the entire letter and appreciate your view point. It's always nice when someone agrees with you, but the three points you stress are uncontestable, at least by knowledgable people. With your abilities to communicate, why aren't you more active on the national level?

There is some encouragement. The new officers have selected an interim Executive Director and we are working towards an interim Marketing Director and establishing a national office at the USOC Olympic Training Center or in that vicinity. All of the new members of the Executive Committee are at least paying lip service to the idea of one strong organization.

However, I strongly believe the only way it will happen is if the Group B members (state organizations) become strong first. I have suggested that we hold a "state organization training session" at the next Group B Caucus. I hope you can attend and give us some input.

Thanks again for your letter and please stay in touch.

Sincerely yours,

Gail Stolzenburg
